

Dear Colleagues:

We are very happy to announce the “*2019 International Workshop on Multiscale Innovative Materials and Structures*” (MIMS19) to be held from February 28th through March 2nd, 2019 in **Cetara (Amalfi Coast)** - Salerno, Italy.

You are cordially invited to participate in this interesting event. Abstracts related, but not limited, to the following areas are welcome:

- *Multiscale mechanics*
- *Architected materials and composites*
- *Lattice materials and structures*
- *Mechanical and acoustic metamaterials*
- *Tensegrity systems at different scales*
- *Granular materials*
- *Smart materials and structures*
- *Microstructure engineering*

Deadline for Abstract Submission is **November 30 2018**. Please visit the MIMS19 website for the list of **keynote lectures** and more details, (www.multiscale.unisa.it), and feel free to contact us for any inquiries (multiscale.salerno@gmail.com).

Special issue

A special issue of **Mechanics Research Communications** will collect original, peer-reviewed contributions presented at the Workshop. Papers in this issue are aimed at bringing together researchers working at the forefront of applied mechanics, material science and engineering, and physics to further our understanding of mechanics of materials at different scales, and its application to the design, modeling, manufacturing and experimentation of innovative multiscale materials and structures. **Submission deadline: 30 April 2019 - Acceptance deadline: 31 October 2019.**

Venue

The Workshop will be held at the **Cetus Hotel** (www.hotelcetus.com) located in a scenic venue of the amazing Amalfi Coast. The hotel is equipped with 37 rooms, all with sea view, and may host up to 91 participants. Alternative accommodations are available at nearby hotels (www.multiscale.unisa.it).

We hope to see you in Cetara next February!

Luciano Feo,
Fernando Fraternali
